# RM Partners

## West London Cancer Alliance

---

*Hosted by The Royal Marsden NHS Foundation Trust*

# Moving Towards Personalised Cancer Care

Shared Learning Event

Tuesday 9<sup>th</sup> April 2019

*Working in partnership, **we will achieve world class cancer outcomes** for the population we serve*

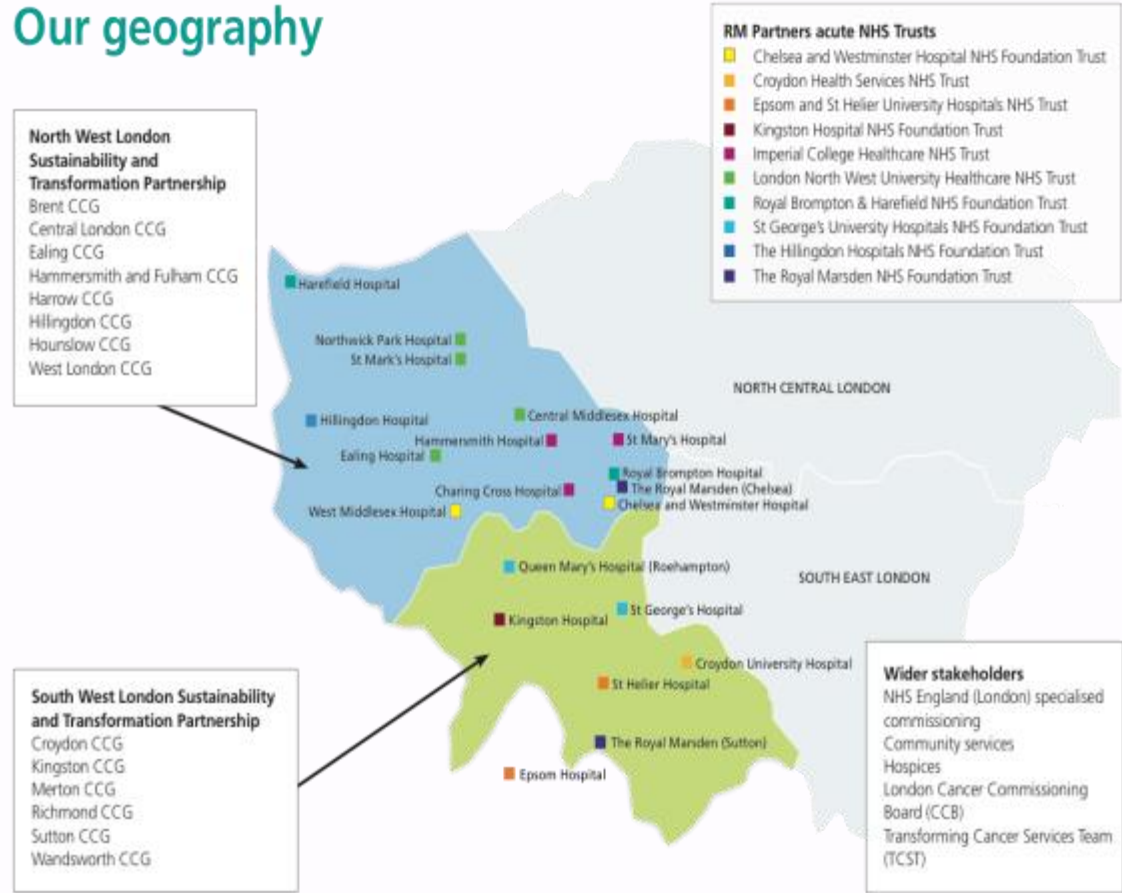

# Welcome & outline of the day

**Nicola Hunt**  
**Managing Director**  
**RM Partners**

**Dr Emma Kipps**  
**Clinical Programme Lead**  
**RM Partners**

- We are the Cancer Alliance covering north west and south west London, a population of 4m
- Our focus is on delivering of the national cancer strategy: improved survival and patient experience

## Our geography

In the three years since we were established as part of the National Cancer Vanguard, we have

- Secured over £24m for our population
- Undertaken over 50 projects
- Engaged over 240 clinicians in our pathway groups
- Developed relationships across organisational boundaries to drive transformation at a system level
- Established ourselves as a leading cancer alliance nationally

## Our Achievements

**Top Cancer Alliance** for one-year survival, but still variation that we are working to address

Our **colorectal redesigned pathway** has seen a reduction in DNAs from **20% to 2%** as a result of telephone triage

Around **2,000** men have gone through the world-leading, HSJ-award-winning RAPID prostate pathway, with an average of **59%** avoiding unnecessary biopsy

Over **11,000** patients in more than **50** hospitals across England are taking part in our NICE FIT research study

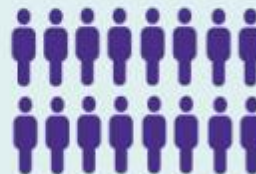

By March 2019, over **1,800** people seen for a lung health check in Hammersmith and Fulham and in Hillingdon, which we hope will result in **20** cancers being diagnosed early

Over **28,000** patients have been called to encourage them to participate in bowel screening

Over **400** patients will go through the **National Optimal Lung Cancer Pathway** across two sites by March 2019

More than **12,000** patients have been triaged by the redesigned colorectal diagnostic pathway

**Number 1 ranked Cancer Alliance** for system delivery of 62-day standard

Around **450** GPs attended cancer education events and two further events are planned

Our Patient Advisory Group has contributed to more than **20** initiatives across the year

Over **250** clinicians are using the cancer decision app to improve early diagnosis

We have offered around **880** extended hours cervical screening appointments

We know that

- West London has highest one year survival nationally
- RMP has consistently met the 62 day standard

BUT

- Only 53.5% diagnosed at stage 1 or 2 in 2016
- Low age-standardised cancer incidence overall, but high incidence when adjusted for ethnicity
- All three screening programs below national standards
- The 28 day Faster Diagnosis Standard will increase pressure on our diagnostic services

## Earlier Diagnosis (asymptomatic patients)

Risk Stratification  
Increase Screening  
Uptake

## Faster Diagnosis (symptomatic patients)

Primary Care Education  
& Sign posting  
Rapid Diagnostic &  
Assessment Pathways  
Rapid Diagnostic &  
Assessment Centres  
Faster Diagnosis  
Standard (FDS)

## Pathways

From primary care to  
tertiary:  
Lung  
Upper & Lower GI  
Prostate

## Personalised Care

Patient Navigator  
Prehabilitation  
Stratified Follow Up:  
Colorectal, OG,  
including working with  
primary care

---

# Outline of today's meeting

## ***“Moving Towards Personalised Cancer Care”***

In the morning:

- Keri, one of our patient reps, the perspective of someone living with cancer & its consequences on personalised cancer care
- Nicola Kay, Deputy Director of Personalised Care at NHS England, one of the authors of *“Universal Personalised Care: Implementing the Comprehensive Model”*, updating us on the national pan-diagnostic agenda.
- A few presentations looking at job roles and models of care along the cancer pathway that support personalised cancer care currently in west London

In the afternoon:

- An update on data & systems to support our personalised cancer care work and
- A couple of workshops so we can hear from you to help make this happen for more people.

With poster and other presentations at breaktimes & lots of opportunities for networking, we hope you enjoy the day!
